Rooted and growing in Aging Services

Are you one or do you know one of the 557,371 seniors 60+ years old living in Orange County?

Are you concerned about how you will manage your personal health?

Every year, the Orange County Aging Services Collaborative (OCASC) releases a Senior Living Needs survey to understand the needs and concerns of older adults in the community. This year, we have developed a questionnaire that will also assist the County of Orange Office on Aging develop a 4-year strategic plan. Responses can help contribute to future funding requests, provide ideas for educational programs, and create new programs. We are asking for your help by distributing it among your network/residents so that we can better understand how we can further assist Orange County seniors.

This survey is completely anonymous; however, if anyone is seeking additional personalized assistance, there is an option to leave contact information at the end of the survey or you can call the Office on Aging at 714-480-6450 / 800-510-2020.

For questions about the *OC Senior Living Needs Survey*, please contact the survey coordinators listed below.

Your opinion matters! Thank you for your participation.
