

# SCAC Senior Center Liaisons

*The Orange County Senior Citizens Advisory Council is charged with the responsibility of advising the Orange County Board of Supervisors and Office on Aging on matters affecting Senior Citizens in Orange County.*

## **The role of the SCAC Senior Center Liaison is to:**

- Create awareness that SCAC provides citizen representation and input to the OC Board of Supervisors and Office on Aging.
- Become aware of, through the relationship with the Senior Center, trends and issues impacting OC Older Adults that should be brought forward to SCAC.
- Develop two-way communication between SCAC, and the Senior Center and its clients.
- Provide a SCAC point of contact for the Senior Center and the Senior Center clients.
- Share information about SCAC activities, and SCAC meetings.
- Invite Senior Center clients to SCAC meetings.
- Develop a relationship to query for trends/needs/issues/opportunities when SCAC has a need for information.

The composition of SCAC and the number of Senior Centers in Orange County does not provide for a one member-one center coverage. Some SCAC members provide coverage to a Senior Center outside their city of residence to ensure that all OC Older Adults have contact with SCAC.

If the City has more than one Senior Center, coordinate with them to see if one point of contact or contact with each Center is preferred. If more than one SCAC member is listed, coordinate with each other.
