Residential Care Facilities for the Elderly (RCFE)

Assisted Living Facilities

Assisted Living Facilities are specially constructed for the purpose of caring for older adults. They are generally laid out apartment style with private or semi-private accommodations and community dining rooms. These facilities can vary in size from 20-200 beds. Typically, assistance takes the form of non-medical custodial care such as bathing, dressing, supervision, of medications, toileting, transportation to medical appointments, and special dietary needs. Many Assisted Living Facilities also provide a structured program of social activities for mental and physical stimulation which is particularly important for those suffering from Alzheimer's or other dementia. Because of the wide range of services, consumers should look closely at the cost and program that will meet their specific needs.
